FUNKEN - Akademy for artistic - technological research

a project in cooperation with Klub Solitaer e.V., Kreatives Chemnitz e.V. und Makers, Business & Arts

FUNKEN OPEN CALL

FUNKEN

FUNKEN KOLLEG 2025

The FUNKEN Kolleg invites artists from all disciplines to explore the transformation to a knowledge, service and digital society in a poetic and aesthetic way. Together, we are exploring ways of cross-sectoral collaboration between technology, science and art. We are convinced that this can be the starting point for new perspectives on the challenges of our time. Impressions of our previous projects - for example with the Fraunhofer Institutes, Ars Electronica and Saxon universities - can be found *here*.

OPEN CALL | ARTISTIC-TECHNOLOGICAL RESEARCH PROGRAMM

The participants work on joint projects in collaborative program situations until mid-May. As part of the matching process, the thematic, methodological or organizational design of the collaboration between the partners will be jointly determined, coordinated and initiated and supported by the FUNKEN Kolleg. Applications are open to professional, freelance artists or collectives from all disciplines with a connection to technology and an interest in ArtScience collaborations. Applicants should have a demonstrable connection to Saxony through their professional work or artistic activities in the region. The fee is calculated on the basis of the time required for the project, including material costs and travel expenses. The estimated time required is approximately 25 days and may vary depending on the specific agreements of the collaboration partners.

PROJECT OUTLINE MAX. 3 PAGES

- | Proposed project topic
- | Technological working methods
- | Time capacities
- | Methods & materials
- | optional: partners from technology & research

DEADLINE | 01.03.25

If you are interested, please send your application to *christoph@klubsolitaer.de*. We look forward to receiving an initial project outline on the possibility of collaboration, particularly with regard to the topic, working methods and optional partners. The submitted projects will be selected according to their artistic approach and feasibility in collaboration with our technology and science partners.

Further inquiries: If you have any questions, please contact the project management at the same e-mail address *christoph@klubsolitaer.de* or by phone at +49 (0) 371 676 046 99.

We look forward to inspiring artistic contributions!
